INDEX TO VOLUME XLVII.

A

Academy Nat. Sci. Philad., Proceedings, 152.
Agassiz, A., Edwards's Oiseaux fossiles de la France, noticed, 276.
Alcohol from castor-oil, 426.
  octylic, new source of, 425.
  tritylic, by fermentation, 426.
Allen, H., Comparative Anatomy and Medical Zoology, noticed, 149.
Allen, J. A., Catalogue of Mass. reptiles and batrachians, noticed, 285.
American Philos. Society, Proceedings, 296.
Ammonium-amalgam, composition of, 420.
Andes of Ecuador, geol. of, *Orton*, 242.
Annual of Scientific Discovery, 434.
Arctic researches, recent, *Gilman*, 103, 377.
Arnott, G. A. W., obituary, *Gray*, 140.
Arsenic, nitrate of silver test for, 255.
Artesian water, Charleston, S. C., 357.
Atomic ratio, *Cooke*, 386.
  volumes of elements, *Clarke*, 180, 308.
Avery, C. E., test for arsenic, 255.

B

Barker, G. F., notices in physiological chemistry, 20, 258, 393.
  chemical abstracts, 420.
Berthelot on varieties of carbon, 418.
  on cyanhydric acid, 420.
Billings, E., structure of Blastoidea, 353.
Binocular vision, *Le Conte*, 68, 153.
Blake, W. P., on decrease in production of gold, 432.
Bone Caves, Gibraltar, report on, 277.
Bost. Nat. Hist. Soc., Proceed., 152, 296, 436.
Botanical necrology, 1868, *Gray*, 140.
Botanical Works noticed:—
  Gray, Field, forest and garden Botany, 280.
  Hooker and *Baker*, Synopsis filicum, 143.
  Watson, Index to names of Indian plants, 143.
Botany:—
  Autumnal foliage, *Wharton*, 251.
  Plantæ Wrightianæ Cubenses, 144.
Brazil reptilian remains, *Marsh*, 390.
Brewer, W. H., obituary of Martius, 288.
Brinton, D. G., on Central American MSS., 222.
Brome's report on Gibraltar caves, 277.
Buchan's Meteorology, noticed, 434.
Bunsen, R., washing of precipitates, 321.

C

Cæsium, new salt of, *Sharples*, 178.
California gold-fields, geol. of, 134.
  oils, distillation of, *Peckham*, 9.
  wealth of, Cronise on, noticed, 150.
Cambridge, Mass., Museum of Comparative Zoology, report noticed, 286.
Campbell on N. W. boundary, noticed, 110.
Carbon in iron, how determined, 374.
  varieties of, Berthelot on, 418.
Carbonylic chlorid, Schützenberger on, 423.
  sulphid, 422.
Carruthers on equisetaceæ, 279.
Cassin, J., obituary, *Brewer*, 291.
  ornithological collection of, 435.
Caucasus, highest peaks of, 382.
Central American MSS., *Brinton*, 222.
Chemistry, Rolfe and Gillet's Handbook, 294.
China, notes on, *Martin*, 98.
Chlorid, carbonylic, Schützenberger, 423.
Chromites of magnesium, *Nichols*, 16.
Clarke, F. W., atomic volumes of liquids, 180.
  of solid elements, 308.
Coan, T., eruption in Hawaii, 1868, 89.
Conrad, T. A., notes on American fossiliferous strata, 358.
Cook, G. H., Geol. of N. Jersey, noticed, 429.
  geol. map of N. J., noticed, 112, 279.
Cooke, J. P., Jr., atomic ratio, 386.
  Chemical Philosophy by, noticed, 435.
Cope's Alleghany fishes, noticed, 285.
Coues's Lists of birds, noticed, 150.
Cronise's Wealth of California, noticed, 150.
Cyanhydric acid, Berthelot on, 420.

D

Dana's Mineralogy, corrections for, 433.
Delessert, F., obituary, 142.

E

Eaton, D. C., Hooker's Synopsis filicum, 143.
Gray's Field, forest and garden Botany, 280.
Eclipse, solar, on observing corona during, *Newcomb*, 413.
spectroscope observations, 127.
Edwards, Oiseaux fossiles de la France, noticed, 276.
Eggertz, on determining carbon in iron, 374.
Elements, atomic volumes of, 180, 308.
Engineering Magazine, Van Nostrand's, 295.
Essex Inst., Proceedings, 296.
Bulletin, 436.

F

Flames, luminous, *Hilgard*, 218.
Fleck on sodium in explosives, 431.
Forbes, J. D., obituary, 294.

G

Geographical notices, *Gilman*, 98, 377.
GEOLOGICAL WORKS noticed:—
Cook, Geology of N. J., 112, 279, 429.
Edwards, Oiseaux fossiles de la France, 276.
Lapham, map of Wisconsin, 279.
Lartet and *Christy*, Reliquiæ Aquitanicæ, 151, 279.
Worthen, Illinois geol. Report, 151.
GEOLOGY:—
Amer. fossiliferous strata, *Conrad*, 358.
Andes of Ecuador, *Orton*, 242.
Blastoidea, structure of, *Billings*, 353.
Brazil reptilian remains, *Marsh*, 390.
Calamiteæ and equisetaceæ, Carruthers on, 279.
California gold-fields, *Phillips*, 134.
Gibraltar caves, report on, 277.
Kansas, supposed footmarks in, *Hitchcock*, 132.
Louisiana, Lower, geol. of, *Hilgard*, 77.
S. C. Phosphates, *C. U. Shepard, Jr.*, 354.
origin of, *C. U. Shepard, Sr.*, 338.
Western Vt., geology of, *Perry*, 341.
Gibbes, L. R., on the occultator, 191.
Gibbs, W., chem. abstracts, 127, 272, 415.
wave lengths of spectral lines, 194.
Gibraltar bone-caves, 277.
Gilman, D. C., geographical notices, 98, 377.
Gold in Rhinebeck, N. Y., 139.
in Scotland, 280.
decrease in production of, 432.
See also California.
Gray, A., botanical necrology, 1868, 140.
Gulf stream soundings, 379.
Gynæcological Society, Boston, 288.

H

Hagemann, G., ivigtite, 133.
Hawaii, eruption in, 1868, *Coan*, 89.
Henry, T. H., nickel and cobalt from manganese, 130.
Hilgard, E. W., geology of Louisiana, 77.
processes in luminous flames, 218.
Hitchcock, C. H., supposed fossil footmarks in Kansas, 132.
Hörnes, M., obituary, 294.
Hooker's Synopsis filicum, 143
Hurricane, Bahamas, 1866, Redfield on, 116.
Hydrocarbons, distillation of, *Peckham*, 9.
boiling point, etc., of, 424.
Hydrogen and palladium, Graham on, 417.

J

Johnson, S. W., nitrification, 234.
How Crops Grow, by, noticed, 147.

K

Kingsley, J. L., Weston meteor, 1.

L

Lakes, Great American, flow of, 145.
Lapham's geol. map of Wisc., 279.
Lartet and Christy's Reliquiæ Aquitanicæ, 151, 279.
Lawrence Scientific School contrib., *Sharples*, 178, 319.
Lea, I., Unios sensitive to light, 430.
Lea, M. C., transmitted and diffused light, 364.
Le Conte, J., binocular vision, 68, 153.
Light, chemical reactions caused by, Tyndall on, 129.
transmitted and diffused, *Lea*, 364.
Liver, sugar in the, 20, 258, 393.
Loew, O., derivatives of trichlormethylsulphon-chlorid, 350.
Long, T., on Arctic explorations, 105.
Lyceum Nat. Hist. N. Y., Annals, 296.

M

Magnesium, chromites of, *Nichols*, 16.
Magnetism of chemical compounds, 128.
Man, Remains of. See Bone-caves.
Manganese, separation of nickel and cobalt from, *Henry*, 130.
Mann, H., obituary, 143.
Manufacturer and Builder, the, noticed, 295.
Maps for showing distribution of plants and animals, 295.
Marsh, O. C., Brazil reptilian remains, 390.
Marshall's Physiology, by Smith, 151, 435.
Martin, W. A. P., notes on China, 98.
Martius, C. F. P. v., obituary, *Brewer*, 288.
Meteorites, carbonaceous matter of, 130.
Cohahuila, Mex., *Smith*, 383.
U. S., new, *Shepard*, 230.
Wisc., *Smith*, 271.
Meteorology, Buchan's, noticed, 434.
Meteors of Aug., 1868, *Newton*, 287.
Nov., 1868, Newton, 118, 399.
Weston, Conn., Dec., 1807, 1.
MINERALS:—
Diaspore, *Sharples*, 319.
Ivigtite, *Hagemann*, 133.
Lesleyite, *Sharples*, 319.
Pattersonite, *Sharples*, 320.
Mitchell, W., obituary, 434.

N

Naturaliste Canadien, noticed, 296.
Newcomb, S., on observations of corona, etc., during a total eclipse, 413.
Newton, H. A., meteors of Nov., 1868, 118, 399
Nichols, W. R., chromites of magnesium, 16.
Nicklès, J., obituary, 434.
Nitrification, *Johnson*, 234.

O

Obituary:—
G. A. W. Arnott, *Gray*, 140.
J. Cassin, *Brewer*, 291.
F. Delessert, *Gray*, 140.
J. D. Forbes, 294.
M. Hörnes, 294.
H. Mann, 143; v. Martius, 288; W. Mitchell, 434.
J. Nicklès, 434.
E. Poeppig, 142.
T. Strong, 293.
N. A. Ward, *Gray*, 141.
Occultator, *Gibbes*, 191.
Orton, J., geol. of Andes of Ecuador, 242.
Owen, R., life and species, 33.

P

Paleontology, see Geology.
Palladium and hydrogen, Graham on, 417.
Perry's Report on Kansas Pacific R. R. route, 112.
Peabody Acad. of Nat. Sci., Memoirs, 436.
Peckham, S. F., distillation of hydrocarbons, 9.
Perry, J. B., geol. of W. Vt., 341.
Petroleum, see Hydrocarbons.
Phillips, J. A., geol. of California gold fields, 134.
Philological Convention, American, 287.
Phosphate from W. I., *Shepard*, 428.
Physiology, Marshall's, noticed, 151, 435.
Poeppig, E., obituary, 142.
Portland Soc. Nat. Hist., Proceedings, 436.
Precipitates, washing of, *Bunsen*, 321.

R

Redfield, J. H., Bahamas hurricane, 1866, 116.
Rogers, W. A., personal equation in transit observations, 297.
Rolfe and Gillet's Handbook of Chemistry, 295.

S

Salt deposit of La., *Hilgard*, 77.
Scudder's N. Amer. Orthoptera, 435.
Sharples, S. P., new salt of cæsium, 178.
minerals from Chester Co., Pa., 319.
Shepard, C. U., Sr., new U. S. Meteorites, 230.
origin of S. C. phosphate formation, 338.
new mineral phosphate from W. I., 428.
Shepard, C. U., Jr., S. C. nodular phosphates, 354.
Silliman, B., Sr., Weston meteor, 1807, 1.
Smith, J. L., meteorites, Wisconsin, 271. Cohahuila, Mex., 383.
Smithsonian Report for 1867, 295.
Sodium, use in explosive powders, 431.
Solar atmosphere, yellow ray of, 415.
eclipse, on observing, *Newcomb*, 413.
protuberances, 127, 273.
spectrum, 127, 273, 274, 417.
spots, vapor of water near, 416.
Species, *Owen* on, 33.
Spectra, stellar, 274, 416, 417.
Spectral lines of the elements, wavelengths of, *Gibbs*, 194; *Thalen*, 272.
observations during eclipse, 127.
Spectrum, artificial, 418.
solar, 127, 273, 274, 417.
Stanley's Logarithmic Tables, error in, 287.
Storer, F. H., Johnson's How Crops Grow, noticed, 147.
Strong, T., obituary, 273.
Sugar in the liver, 20, 258, 393.
Sulphid, carbonylic, 422.
Sulpho-carbamid, Reynolds on, 428.
Sun, see Solar.

T

Transit observations, personal equation, in, *Rogers*, 297.
Trichlormethyl-sulphon-cholorid, *Loew*, 350.
Tyndall on chemical reactions caused by light, 129.

V

Van Nastrand's Engineering Magazine, 295.
Vermont, geology of, *Perry*, 341.
Verrill, A. E., halcyonoid polyps, 282.
on Radiata in Y. C. museum, noticed, 286.
Vision, binocular, *LeConte*, 68, 153.
Volcanic eruption, Hawaii, *Coan*, 89.

W

Ward, N. A., obituary, *Gray*, 141.
Washing of precipitates, *Bunsen*, 321.
Watson's Index to Indian names, 143.
Wharton, J., autumnal foliage, 251.
White, C. A., unios and light, 280.
Wiedemann on magnetism of compounds, 128.
Wilder on Extra Digits, noticed, 150.
Worthen's Ill. Geol. Report, noticed, 151.

Z

Zoological Works noticed:—
Allen, H., Comparative Anatomy, 149.
Allen, J. A., Catalogue of Mass. reptiles and batrachians, 285.
Cope, Allegheny fishes, Va., 285.
Coues, Birds of N. England, 150.
Birds of S. Carolina, 150.
Edwards, N. Amer. Butterflies, 150.
Scudder, N. Amer. Orthoptera, 435.
Verrill, Radiata in Y. C. museum, 286.
Zoology:—
Halcyonoid polyps, *Verrill*, 282.
Life and species, *Owen*, 33.
Unios sensitive to light, *White*, 280; *Lea*, 430.
